

Ananya Sharma

ananya.sharma.dev@gmail.com | +91 98765 43210 | Bengaluru, India

Summary

Backend-focused Software Engineer with 4+ years of experience building scalable APIs and data pipelines. Strong in Python, distributed systems, and cloud infrastructure. Passionate about clean architecture and mentoring junior engineers.

Skills

Python, Java, SQL, FastAPI, Django, Flask, PostgreSQL, MongoDB, Redis, Docker, Kubernetes, AWS (EC2, S3, Lambda, RDS), Apache Kafka, REST APIs, GraphQL, Git, CI/CD, Pytest, System Design, Agile/Scrum

Experience

Senior Software Engineer — Nimbus Cloud Technologies

Bengaluru, India | June 2022 – Present (3 years)

- Project: Order Fulfillment Platform — led backend re-architecture from a monolith to microservices, using Python (FastAPI), PostgreSQL, and Kafka.
- Tech Stack: Python, FastAPI, PostgreSQL, Kafka, Docker, Kubernetes, AWS
- Reduced average order-processing latency by 42% and cut infrastructure costs by 25% through query optimization and autoscaling policies.
- Mentored 3 junior engineers and led weekly code reviews and design discussions.

Software Engineer — Vertex Data Systems

Pune, India | July 2020 – May 2022 (1.8 years)

- Project: Customer Analytics Dashboard — built ETL pipelines and REST APIs to power a real-time analytics dashboard for enterprise clients.
- Tech Stack: Python, Django, MongoDB, Redis, React (basic), AWS Lambda
- Built and shipped 15+ REST API endpoints consumed by 5 internal teams.
- Implemented automated test suite with Pytest, raising code coverage from 48% to 87%.

Education

B.Tech in Computer Science — Indian Institute of Information Technology, Pune

2016 – 2020 | CGPA: 8.7/10

Certifications

AWS Certified Solutions Architect – Associate (2023) | Certified Kubernetes Administrator (CKA) (2022)
